Oasis Medical Cannabis is a unique Las Vegas Dispensary in Southern Nevada.

Posted by haryundosgra / 03 - Jan - 2017

In 2015 the first legal medical marijuana dispensaries in Las Vegas was started but the only thing the patients found it uneasy was that the money which they were paying for these products were excluding the tax. Nevada marijuana dispensaries honor medical marijuana cards from other states. You have to have a medical marijuana card to buy marijuana in Nevada. Patients cannot use medical marijuana anywhere they think. Later Oasis Medical Cannabis was started and it was the first in the Las Vegas valley to offer prices including tax, which was up to 17 %, depending on the product.

Oasis Medical Cannabis was started in December 2015 with over 25 strains to choose from. For 15 years, they have been collecting marijuana plants from all over the world Legal medical marijuana las vegas. Collecting rare marijuana strains from around the world, they were able to grow many new strains in their highly equipped labs, and were able to generate many new products for the patients. With the help of biotechnological methods like crossbreeding of different strains of plants, they have developed medical marijuana strains that give you the perfect marijuana plant with medicinal benefits. They study each and every patient and then only designed the products based on the requirements and needs. They have started recently and have contributed to a great extent so far. They undertake all possible classes which can help the patient recover faster in a more natural manner, rather than undertaking any other allopathic drugs, which could in turn, caused adverse effects. They love to get feedback from their beloved customers and hence Oasis Medical Cannabis will keep working on providing the best experience possible so that they keep providing you with something new and interesting.
